

KEY QUARTZ COLORS

Broadcast Grade Blends

KEY RESIN BROADCAST QUARTZ flooring systems are designed to provide a decorative, slip resistant and seamless surface. Consisting of colored quartz aggregate and clear resins, these durable and chemically resistant floors can be installed with varying degrees of texture to meet your specific project requirements.

When selecting the **KEY BROADCAST QUARTZ** blend for your application, please take time to carefully consider:

1. **APPEARANCE:** Light color blends tend to show more “shadow” than dark color blends.
2. **TRAFFIC & MAINTENANCE:** Wheel marks and dirt naturally show up more on light vs. dark color blends.
3. **SPILLAGE:** What might be most commonly spilled on the floor? Consult your **Key Resin Representative** to determine the degree of chemical resistance you may require prior to selection of the system.

Key Resin Company provides this color guide for preliminary color selection only. Please refer to a physical sample prior to making a final choice. Contact your local **Key Resin Representative** for assistance.
