

KEY RESIN URECON flooring systems are designed to provide a heavy-duty, impact resistant, slip resistant and seamless surface. Consisting of urethane cement toppings with various polymer resin top coats, these durable and chemically resistant floors can be installed with varying degrees of texture to meet your specific project requirements. Also available with a **KEY BROADCAST QUARTZ** finish.

* Additional surcharge required for **Dark Blue, Light Blue, Green**, contact **Key Resin** for details.
For additional colors and for **Key Urecon SC** and **Key Ultracon SC** refer to **Key Urethane Pigment Pack** color chart.

When selecting the **KEY URECON OXIDE PIGMENT COLORS** for your application, please take time to carefully consider:

1. **APPEARANCE:** Light colors tend to show more "shadow" than dark colors.
2. **TRAFFIC & MAINTENANCE:** Wheel marks and dirt naturally show up more on light vs. dark colors.
3. **SPILLAGE:** What might be most commonly spilled on the floor? Consult your **Key Resin Representative** to determine the degree of chemical resistance you may require prior to selection of the system.

Key Resin Company provides this color guide for preliminary color selection only. Please refer to a physical sample prior to making a final choice. Contact your local **Key Resin Representative** for assistance.
