

## **Technical Bulletin #15 Key Epoxy Terrazzo**

### Advantages of Epoxy Thin-set Terrazzo Compared to Cement Terrazzo

- Unlimited matrix colors including bright and vivid colors.
- LEED Qualifying: Higher quantity of recycled glass aggregate may be used with epoxy.
- Color control from batch to batch.
- Chemical resistance.
- Greater tensile and compressive strengths.
- Excellent for multi-colored patterns and designs.
- Lighter weight makes it ideal for multi-story use.
- Has the lowest maintenance cost due to non-absorbency.
- In sanitary areas can be installed with minimal divider strips providing seamless characteristics.
- Absorbs some horizontal concrete crack or control joint movement when used in conjunction with a flexible resin membrane.
- Tolerates excessive moisture vapor when used in conjunction with a moisture vapor control primer.
- Has the quickest pour to grind installation time.
