

#116 SLAB GLASS

KEY RESIN COMPANY

SLAB Glass

KEY #116 EPOXY SLAB GLASS is specifically formulated for casting between slabs of faceted glass to form strong and weather resistant stained glass windows. Slab Glass is stronger and more resistant to heat loss than conventional faceted glass systems, which makes it ideal for large windows exposed to varying weather cycles.

ADVANTAGES

- Excellent bonding capabilities to faceted glass.
- Low odor for use in occupied areas.
- Absorbs differences in thermal expansion/contraction.
- Stronger and more resistant to heat loss than conventional faceted glass systems.

TYPICAL USES

The standard for faceted glass windows, Slab Glass is higher in strength and lighter in weight to bring new dimension in design and creative possibilities to an ancient art form.

Key Resin Company provides this color guide for preliminary color selection only. Please refer to a physical sample prior to making a final selection. Contact your local Key Resin Representative for assistance or contact the main office.
